

Chewlas™

NATURAL PUMICE CHEW STONES

natural stone mined from the world's purest commercial deposit of white pumice

abrasive enough to wear down teeth and nails, yet soft enough not to damage

clean and pure; our pumice is used in dentistry and beauty products; beverage and water filtration

safe to ingest; our pumice is used in livestock feed as an anti-caking agent

contributes important trace nutrients like magnesium, potassium, calcium, sodium, and functions as a dietary fiber.
